PROFILE

I'm a passionate and dedicated front-end developer with a keen sense of design and a strong commitment to delivering exceptional user experiences. With a solid foundation in HTML, CSS and JavaScript, I thrive on transforming creative concepts into functional and visually appealing websites. I enjoy keeping abreast of the latest trends and technologies in web development, constantly seeking opportunities to broaden my skill set. Collaborative by nature, I excel in cross-functional teams and value effective communication to ensure flawless project execution. With great attention to detail and a drive for excellence, I'm motivated to contribute to the success of dynamic organizations by creating innovative and responsive web solutions.

PROFESSIONAL EXPERIENCE

FRONT-END DEVELOPER

KechTrip

2016-2018

- Development of custom WordPress websites using Sass for style management.
- Creation of REST APIs for data integration with third-party systems, with advanced use of JavaScript for front-end interaction.
- Integration of web designs with HTML/CSS to ensure optimal user experience.
- Use of Symfony for specific feature development and React for interactive components.
- Optimization of websites for SEO, focusing on URL structure, meta tags and page load speed.

WORDPRESS DEVELOPER

Icreative

2018-2020

- Development of custom WordPress websites with extensive use of Sass for style management.
- Creation of REST APIs to allow clients to retrieve data in real time, using JavaScript for client-side interaction. Integration of web designs with HTML/CSS, ensuring cross-browser compatibility.
- Use of Symfony for more complex project management and React for interactivity.
- Improved website SEO by implementing keyword research, title tag optimization, and internal link structure.

FRONT-END DEVELOPER

Lisara Agency

2020-2024

- WordPress website development, including theme customization, using Sass.
- Creation of REST APIs to facilitate integration with third-party applications, with progressive improvements in JavaScript.
- Integration of web designs using HTML/CSS for various clients.
- Training and user support for WordPress content management.
- Introduction of basic SEO techniques, such as writing optimized content and image SEO.

R&D DEVELOPER

Weshore

2024-Present

- Design and development of custom WordPress plugins to enhance site functionality.
- Creation of responsive WordPress themes tailored to customer needs.
- Integration of third-party APIs to enhance application functionality.
- Development of interactive JavaScript applications for optimal user experience.
- Collaboration with cross-functional teams to define technical and functional requirements.
- Use of PHP and Symfony to develop robust, scalable web applications.
- Optimized performance and security of WordPress sites.
- Writing technical documentation to facilitate project maintenance and evolution.
